

AWARE DEFENSE

PRESERVING THE WARFIGHTER

HUMANS ARE MORE IMPORTANT THAN HARDWARE

Custom Fit Hearing Protection for Maximum Comfort

Revolutionizing hearing protection with our custom-fit solution developed for the military. Our patented 3D Ear Scanner ensures a perfect fit to your unique ear shape. Built to meet the rigorous demands of the U.S. Military, Law Enforcement, and SWAT teams, our in-ear devices deliver unparalleled comfort and exceptional durability for long-lasting performance in the most challenging environments.

Enhanced Hearing Protection and Comms

Our proprietary 50,000 ear scan database, 3D radial imaging, and patented AI-driven technology provide a perfect fit, superior attenuation, and optimal comm placement. Aware Defense in-ear devices provide trusted protection while delivering clear communication in noisy environments — essential for military operations.

Proven in Extreme Conditions

Tested in the toughest environments, our devices are trusted by elite units for their reliability, comfort, and field performance.

Biometric Hearable

Aware's Next-Gen Hearable is in development with the military and healthcare to improve human performance by collecting medical-grade biometrics and brain data. Tracking vital signs and stress in real-time provides critical data for informed decisions.

MISSION-READY PERFORMANCE

DISCOVER GEAR THAT ACTUALLY GETS WORN AND PERFORMS FLAWLESSLY

Aware EarShield

Blend of advanced materials, it preserves essential hearing. Maintains a secure seal. Hypoallergenic & antibacterial with an NRR of 27 dB.

Aware RadioCOMM

Custom-fit Communication Earpiece: Single-side design with acoustic vent for situational awareness. Hypoallergenic. Fits APX radios. Coiled sound tube & alligator clip included.

Aware EarBud

Enhance your listening with Aware EarBud overmolds. They form a perfect seal, enriching music tones for acoustic bliss. Comfortable, hypoallergenic, and easy to clean.

Aware CEP

The ultimate aviation communication earpiece. Offers a custom fit, superior hearing protection, and seamless integration of communication electronics for clear conversations. Comfortable, hypoallergenic & maintains an acoustic seal.

Aware EarDefender

Offering unmatched comfort and a secure seal. Hypoallergenic & with a Shore A hardness of 25/35, EarDefender provides an NRR of 26 dB. Seamlessly integrate comms.

Aware OverMold

Custom-fit ear canal sleeves designed to integrate with your existing comms systems—transforming popular headsets into mission-ready, professionally sealed hearing device solutions.

Aware OpsPlug

Superior noise mitigation for operational conditions, providing optimal rest, recovery, and resilience. Comfort-fit, soft silicone, and hypoallergenic. Ensures a secure acoustic seal with an NRR of 25 dB.
